Decorate Clerks Grand.

One of the most enjoyable affairs of the past week was the dancing party held in Emory hall, Long's hotel, Haintree, Tuesday evening.

The affair was a pronounced success, and another of those most enjoyable occasions was credited to this very popular organization. The committee in charge was composed of Mrs. David Conner, Mrs. Frank Perry, Mrs. W. C. Crocker, Mrs. William Allen, and Miss Eileen Hann, and they deserve much credit for their very successful management.

Recital.

At the residence of Mr. and Mrs. Edmund H. Hunt last Monday evening, Mr. C. Follett Spear gave the last of her recitals in Westmouth. [There is to be, however, another at Quincy on April 29th, at the residence of Mr. and Mrs. William B. Adams, Jr.] Miss Clara, who included in the program, the solo, "The Westmouth Course." Miss Spear sang artistically, showing an earnest endeavor to give the full meaning of the charming songs of last night, Franz, Schubert and Grieg. Mrs. Thelma Perry, who will give the next recital, was also present, and gave much pleasure to all, and in the duet with Miss Spear was particularly effective. F. Stuart Mason's violin selections, accompanied by Miss Clapp were well rendered with great expression. The piano was played by Miss Perry. Mrs. Alma Faunce Smith at the piano, and Mr. Leola E. Thilen at the organ, as a rare treat. Mrs. Smith's solos were played with her usual dash and spirit, and were exceedingly well and agreeable. It was really one of the enjoyable series of recitals is nearly ended.

Catskill Cannot Be Cured

With LOCAL APPLICATIONS, as they cannot reach the seat of the disease, Catskill is blind to the fact that it is impossible to cure its most fatal internal troubles. It fails Catskills because it does not touch the blood and mucous surfaces. Hall's "Cure Cure" is not a local remedy. It was prescribed by one of the best physicians in this country for years, and is a permanent cure. It is combined with the best blood purifier known, and is the only medicine that gives perfect combination of the two ingredients in what is called a "cure." It is sold by Dr. J. C. Hall, New York. two flower gardens are alike. The Jacqueminot roses of one garden differ radically from the Jacqueminot roses of another. It all depends on the gardener. So it is with coffee, two plantations produce exactly the same berry. After quarter of a century coffee importers, we began studying plantations. 25 years had taught us coffee, 12 years more taught us where it was grown.
